

REMOTE & PART-TIME INTERNSHIP

YOU

Student in Computer Science

You really love coding

Like this is the most important stuff going on in your life

Want a remote & part-time job after the paid internship

YOU ALREADY KNOW

-  HTML/CSS & Tailwind
-  One programming language

WHAT YOU WILL LEARN WITH US

-  Elixir, Phoenix Framework & the Elixir ecosystem
-  Functional programming & distributed systems on the OTP
-  SQL & Postgres
-  AWS
-  AI engineering

HOW WE WORK

STEP 1 PAID INTERNSHIP

STARTS IN JULY 2024

Training & learn the basics & peer programming on real code already running in production

CONTINUES IN AUGUST

Build you first real features & launch in production

STEP 2 REMOTE & PART-TIME JOB

Starts in September or October 2024 – **you decide what works for you**

You start as a junior developer in a **real project**

Get plenty of **help & challenges** along the way

Very small team, you have **direct & personal impact** every week. You will work with the company founder on a daily basis

Interested? Send us a short mail & CV to jobs@remotereason.com
